TITLE	Drug Abuse Current Awareness System (DACAS), Volume 1 Number 8.
INSTITUTION	National Inst. of Mental Health, Rockville, Md. National Clearinghouse for Drug Abuse Information.
PUB DATE	9 Oct 72
NOTE	17p.
EDRS PRICE	MF-$0.65 HC-$3.29
DESCRIPTORS	Bibliographic Citations; *Bibliographies; *Drug Abuse; Drug Education; *Literature; Periodicals; Reference Materials

ABSTRACT

The Drug Abuse Current Awareness System (DACAS) is a comprehensive biweekly listing of citations of recent drug abuse literature, derived from scanning the major publications media in the area. This includes scientific and technical journals, popular magazines, underground newspapers, books, legal journals, and government project reports. Citations are categorized in 21 major subject areas: history, socio-cultural aspects, epidemiology, law and public policy, etiology, treatment education, community action, information resources, pharmacology/chemistry/toxicology, behavioral and physiological effects, narcotics, stimulants, depressants, hallucinogens, cannabis and derivatives, volatile substances, other drugs of abuse, and literature. Items are entered alphabetically by author under each heading when they are available. A final section notes current conferences and seminars indicating name and location of the program, dates, and whom to contact for further information. (BL)

Drug Abuse Current
Awareness System

The Drug Abuse Current Awareness System (DACAS) is prepared for publication by Herner and Company under Contract Number HSM-42-72-60.

The National Clearinghouse for Drug Abuse Information, operated by the National Institute of Mental Health on behalf of the Special Action Office for Drug Abuse Prevention and the Federal agencies engaged in drug education programs, is the focal point for Federal information on drug abuse. The Clearinghouse distributes publications and refers specialized and technical inquiries to Federal, State, local, and private information resources.

Inquiries should be directed to the National Clearinghouse for Drug Abuse Information, 5600 Fishers Lane, Rockville, Maryland 20852.

INTRODUCTION

The Drug Abuse Current Awareness System (DACAS) is a comprehensive biweekly listing of citations of the recent drug abuse literature, derived from scanning the major publications media in the area, including scientific and technical journals, popular magazines, underground newspapers, books, legal journals, and government project reports. The citations are categorized into the twenty-one *Major Subject Areas* listed below. Citations are listed alphabetically by author under each heading when there are entries for that issue.

History
Socio-Cultural Aspects
Epidemiology
Law and Public Policy
Etiology
Treatment and Rehabilitation
Psychology and Psychological Effects
Public Information
Drug Education
Community Action
Information Resources
Pharmacology, Chemistry, and Toxicology
Behavioral and Physiological Effects
Narcotics
Stimulants
Depressants
Hallucinogens
Cannabis and Derivatives
Volatile Substances
Other Drugs of Abuse
Literature

To better serve the very specific needs of researchers and professionals in the area, the Clearinghouse has developed a chart/matrix of drug abuse research which is attached to each DACAS list for use as a quick index reference. The matrix is composed of drug categories more specific than the *Major Subject Areas*, such as LSD, marihuana, barbiturates, and amphetamines, and research areas and methods including treatment modalities, chemical technics, biochemical and metabolic studies, and etiology.

Not all articles in the DACAS list are included in the matrix since broad categories, such as *Public Information, Law and Public Policy, Community Action, History,* and *Other Drugs of Abuse,* do not require coordinate indexing for quick identification. Citations are already categorized under these headings in the list itself.

The original articles cited in this list are abstracted and entered into the Drug Abuse Information Resources and Materials File, which is part of the Clearinghouse computerized storage and retrieval system. The original articles are not available from the Clearinghouse, but may be obtained from local university or medical libraries.

The first issues of the Drug Abuse Current Awareness System are considered pilot issues. The Clearinghouse is interested in eliciting comments and criticisms regarding the value of this publication so that it can be improved and made more responsive to the needs of the public.
